PROJECT DESCRIPTION

Lane repurposing to improve Ped/Bicycle facilities and incorporate aspects of Tampa MOVES plan.

As part of the Tampa M.O.V.E.S. (Mobility, Opportunity, Vision, Equity, and Safety) initiative, the city plans to host several opportunities for residents to engage and provide input on how they envision Tampa transforming in the next 30 years. The Twiggs Street project started as part of the Florida Department of Transportation's County Incentive Program. Tampa was awarded a grant for the segment between Ashley Drive and Nebraska Avenue. Because the segment between Nebraska Avenue and Channelside Drive is on the City's High Injury Network – streets with the highest incidence of fatal and severe injury crashes – it is also being reviewed with a focus on safety and multimodal challenges and opportunities.
