PROJECT DESCRIPTION

This project provides for multimodal and safety improvements. General maintenance and Complete Streets improvements to several streets and incorporated in this project in the Downtown Core: Tampa St from Brorein St to Jackson St. As part of the project, these roadways will be resurfaced to remove deficiencies and provide a newly finished driving surface. This project will also include multimodal improvements to make these corridors safer for all users in accordance with the City's Vision Zero initiative. Parking Protected Buffered Bike Lanes with conflict markings to allow for safer cycling; Pedestrian Bulb-outs to shorten pedestrian crossing distances; Enhanced Crosswalks to provide pedestrians with more visibility; Traffic Calming features to control speeds and reduce the likelihood of fatal crashes; Reconstructed Curb Ramps to provide ease of use and accessibility to people with disabilities.

COMMUNITY BENEFITS

Complete Streets & Safety Improvements
