

Lower Peninsula Watershed Plan - Southeast Region

PROJECT DETAILS

PROJECT ID	1000750
DEPARTMENT ID	SW40004
CONTRACT ID	19-C-00059
PROJECT TYPE	Stormwater Engineering
PROJECT STATUS	Closeout
PROJECT PHASE	P5: Closeout
NEIGHBORHOOD	Interbay - South of Gandy
COUNCIL DISTRICT	4
COMMUNITY REDEVELOPMENT AREA (CRA)	Not in a CRA
FUNDING SOURCE	Multiple Funding
FUNDING COMMENTS	Stormwater Capital Imp. Bonds, Stormwater Imp. Assessment, FDEP Grant, SWFWMD Grant, Water Bonds

ESTIMATED PROJECT COST

\$54,650,000

Funded: Yes

ESTIMATED SCHEDULE

CONSTRUCTION FISCAL YEAR	2023
PROJECTED START DATE	11/01/2022
PROJECTED END DATE	03/01/2026

PROJECT DESCRIPTION

The Lower Peninsula Watershed covers approximately 8.6 square miles (5,508 acres) within the City of Tampa and has long experienced chronic flooding due to failing and undersized stormwater conveyance systems. A watershed management plan developed in 2019 established a baseline for capital improvement planning and identified conceptual solutions and multiple potential projects to address frequent flooding throughout the region. Planned infrastructure improvements include the design and construction of more than 8,000 linear feet of new box culverts and pipes, new drainage inlets, and a new stormwater outfall to Hillsborough Bay. The City secured cooperative funding from both the Southwest Florida Water Management District (SWFWMD) and the Florida Department of Environmental Protection (FDEP) to support implementation.

COMMUNITY BENEFITS

Flooding Relief | Water Quality Improvements | Restore Natural Habitats | Enhance Park Amenities
