

Sulphur Springs Pumping Station Design Build

PROJECT DETAILS

PROJECT ID	1001809
DEPARTMENT ID	WW1001809
CONTRACT ID	20-C-00014
PROJECT TYPE	Wastewater
PROJECT STATUS	30% Design Completion
PROJECT PHASE	P2: Design
NEIGHBORHOOD	Sulphur Springs
COUNCIL DISTRICT	5
COMMUNITY REDEVELOPMENT AREA (CRA)	Not in a CRA
FUNDING SOURCE	PIPES
FUNDING COMMENTS	No additional funding comments

ESTIMATED PROJECT COST

\$19,700,000

Funded: Yes

ESTIMATED SCHEDULE

CONSTRUCTION FISCAL YEAR	2028
PROJECTED START DATE	01/01/2028
PROJECTED END DATE	12/01/2028

PROJECT DESCRIPTION

This project provides for the complete rehabilitation of Sulphur Springs Pumping Station at 7902 N. 13th St. The project will serve to rehabilitate the existing wet-dry type pumping station. This project will include replacement of pumps, piping, valves, and electrical improvements to ensure continued reliability of the station. The project also includes the installation of a backup generator to maintain station operation in the event of a power loss.

COMMUNITY BENEFITS

The pumping station rehabilitation project will restore the station's reliability by replacing the aging equipment and will include improvements to reduce vulnerability to extreme weather events. The station is a critical wastewater asset and failure of the station would result in a wastewater overflow that would impact the environment and pose a public health threat to the surrounding neighborhoods.
