

S.E. Seminole Heights Flooding Relief (GMP 1)

PROJECT DETAILS

PROJECT ID	1001151
DEPARTMENT ID	SW40003
CONTRACT ID	19-C-00012
PROJECT TYPE	Stormwater Engineering
PROJECT STATUS	Construction in Progress
PROJECT PHASE	P4: Construction
NEIGHBORHOOD	Old Seminole Heights
COUNCIL DISTRICT	6
COMMUNITY REDEVELOPMENT AREA (CRA)	Not in a CRA
FUNDING SOURCE	Stormwater Improvement Fee
FUNDING COMMENTS	No additional funding comments

ESTIMATED PROJECT COST

\$33,535,000

Funded: Yes

ESTIMATED SCHEDULE

CONSTRUCTION FISCAL YEAR	2022
PROJECTED START DATE	11/01/2021
PROJECTED END DATE	11/30/2026

PROJECT DESCRIPTION

The project includes approximately 16,300 linear feet of new stormwater culverts with associated laterals, inlets, system interconnections, and utility conflict resolution relocations. It also incorporates transportation-related elements, sustainability treatment components, and upgrades to existing water infrastructure. In addition, the project will replace roughly 11,700 linear feet of water mains located outside the stormwater construction corridors. The City secured cooperative funding support from the Southwest Florida Water Management District (SWFWMD) to implement these improvements.

COMMUNITY BENEFITS

Flooding Relief | Pollution Reduction | Infrastructure Upgrades | Enhance Traffic/Pedestrian Safety
