PROJECT DESCRIPTION

This project provides for the construction of five (5) aquifer recharge wells and five (5) monitoring wells at the Howard F. Curren AWTP. The improvements will support compliance with Senate Bill 64 by providing a sustainable beneficial reuse option for treated effluent and reducing nonbeneficial surface water discharges to Hillsborough Bay.

COMMUNITY BENEFITS

The project will support compliance with Senate Bill 64 by providing a sustainable beneficial reuse alternative for treated effluent currently discharged to Hillsborough Bay. The project includes the construction of aquifer recharge and monitoring wells to reduce nonbeneficial surface water discharges.

The cost and schedule data shown here are the City's current best estimates and are subject to change. Data is current as of the 15th of each month.
Printed: November 7, 2026
