

Lamb Canal Rehabilitation & Flood Relief

PROJECT DETAILS

PROJECT ID	1001171
DEPARTMENT ID	SW50006
CONTRACT ID	
PROJECT TYPE	Stormwater Engineering
PROJECT STATUS	Planning
PROJECT PHASE	P1: Planning
NEIGHBORHOOD	Sunset Park
COUNCIL DISTRICT	4
COMMUNITY REDEVELOPMENT AREA (CRA)	Not in a CRA
FUNDING SOURCE	Multiple Funding
FUNDING COMMENTS	No additional funding comments

ESTIMATED PROJECT COST

\$1,000,000

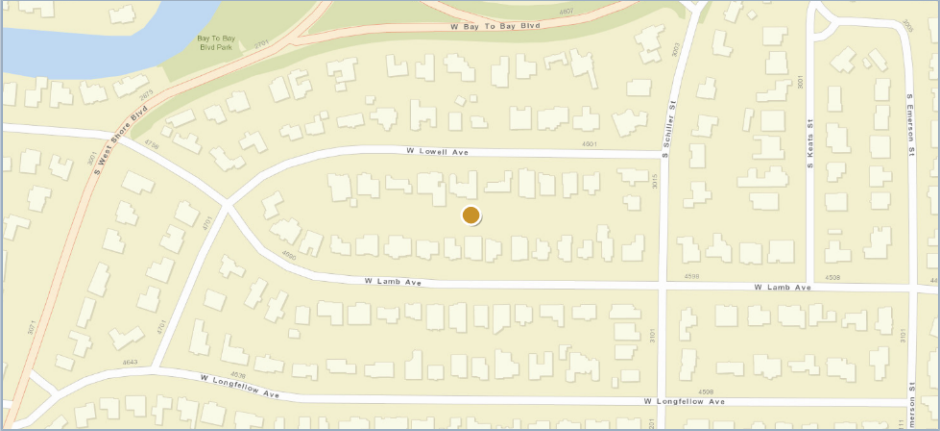

Funded: Yes

ESTIMATED SCHEDULE

CONSTRUCTION FISCAL YEAR	2027
PROJECTED START DATE	03/01/2027
PROJECTED END DATE	07/01/2027

PROJECT DESCRIPTION

The Lamb Canal has experienced long-term erosion and embankment deterioration, increasing the risk of further damage to adjacent properties. This project will rehabilitate sections of the canal by, stabilizing the eroded banks. Additional upgrades will enhance embankment stability and overall drainage performance throughout the watershed.

The project is currently at a 60% design status. Upon completion, the project will relieve flooding along local and collector roadways thereby improving traffic safety, and water quality draining to Lake Dundee and Tampa Bay, as well as provide for a low-maintenance and resilient drainage system.

COMMUNITY BENEFITS

Flooding Relief | Erosion Protection
